

Anthony Wilson

Vice President, Transmission • Georgia Power

Anthony L. Wilson, as Transmission Vice President, is responsible for the planning, maintenance, operations and new construction of Georgia Power's transmission system.

Wilson began his career with Southern Company at Mississippi Power in 1984. He held various positions there, including Manager of the Meridian Region, Manager of the Columbia Area, Assistant to the President, Assistant Plant Manager and Region Power Delivery Manager. In 2002, Wilson joined Georgia Power where he has served as Manager of Marketing Regulatory Affairs, General Manager of Distribution Engineering, Construction and Maintenance, and, most recently, Vice President, Distribution.

A native of Biloxi, Mississippi, Wilson has a bachelor's degree in electrical engineering from Mississippi

State University and an MBA from the University of Southern Mississippi. He also is a graduate of the Oxford University Advanced Management Program.

Wilson has been active in local and state boards, including 21st Century Leaders, United Way, Boy Scouts and the American Cancer Society. He serves on the Advisory Board of the School of

Engineering at Mississippi State University, where he was selected as a Distinguished Engineering Fellow in 2009. He is a graduate of Leadership Mississippi and holds professional memberships in IEEE and the National Society of Professional Engineers. He serves on the Distribution Executive Committee of the Electric Power Research Institute and the Power Delivery Committee of the Association of Edison Illuminating Companies.
