

Green Energy Special Event Purchase Option

A great way to show customers you're committed to the environment

Georgia Power offers Green Energy as a one-time purchase through the Special Event Purchase Option. Customers who wish to purchase Green Energy to offset the electricity usage for their event may purchase through this option. A special event refers to an assembly that lasts a specific period of time with projected electricity usage in excess of 1,000 kWh.

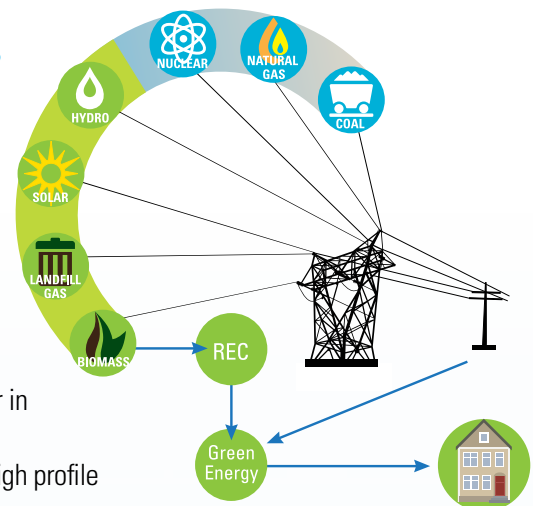

Event organizers can show that they are making a commitment to purchase electricity generated from renewable resources. This support of environmentally friendly energy sources sends a powerful message about the commitment to the environment from event organizers and participants.

Who might be interested in the Special Event Purchase Option?

- Concerts
- Sporting Events
- Company Meetings
- Festivals

Benefits of Special Event Green Energy:

- **Brings alternative energy generation to Georgia.** The Green Energy program makes it easy for your company to support the use and advancement of alternative fuel sources like biomass and solar in the Southeast.
- **Enhances the image of the event.** Green Energy is a valuable, high profile addition to your company's record as a good corporate citizen.
- **Increases positive exposure.** Georgia Power helps ensure that prospective and existing customers — and the public at large — know your company is a Green Energy participant.
- **Provides on-site recognition** for your participation in the Green Energy program. You will also benefit from Georgia Power's marketing campaign promoting Green Energy, designed to build awareness about the program.
- **Impacts the community.** Since Green Energy sources have a reduced impact on the environment, they help improve our communities.

The Special Event Purchase Option will be offered with customer-specific pricing. See your Georgia Power rep for more information.
