

A new window of opportunity is open.

Get 25% more in rebates for a limited time.

Your business deserves more savings, and Rebate Rewards is here to help. For a limited time, we're **increasing rebates by 25%** on qualifying energy-efficient equipment. That means even bigger savings on lighting, HVAC and other upgrades that lower your energy costs.

Upgrade now, save more.

Don't miss this opportunity to improve your business operations for less. Here's how Rebate Rewards can help:

- ▶ **Lower project costs:** Our increased rebates make energy-efficient upgrades even more affordable.
- ▶ **Reduce energy consumption:** High-efficiency improvements can lead to long-term energy and cost savings.
- ▶ **Start saving sooner:** The sooner you upgrade, the sooner you benefit from lower operating costs.

Qualifying equipment:

- ▶ Existing building lighting
- ▶ New construction lighting
- ▶ HVAC
- ▶ Food service and grocery
- ▶ Pumps
- ▶ Business equipment

The time to act is now—this window for greater savings won't stay open forever. Submit your application by **June 30, 2025**, and complete your project by **Nov. 30, 2025**, to qualify for Rebate Rewards.

Learn more and submit your application at georgiapower.com/ceep.

Eligibility Details:

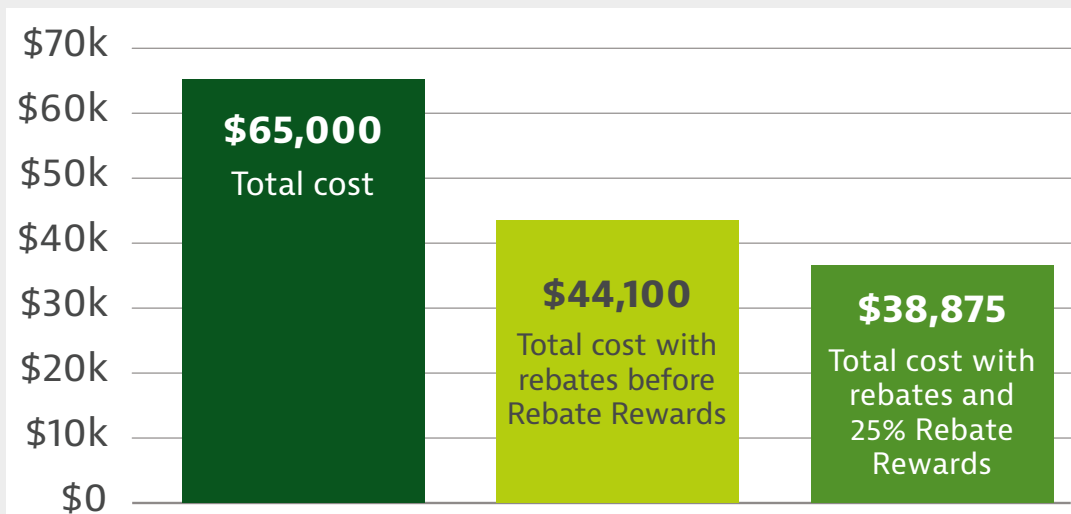

- ▶ Applications must be submitted through the Commercial Rebate Application Center by June 30, 2025.
- ▶ Rebate payments will be issued once the project installation is completed and all close-out documents are received. Projects must be complete by Nov. 30, 2025, to qualify.
- ▶ Application and close-out documents received after the offer deadline will be processed based on the existing rebate standards.
- ▶ Distributor Instant Rebates applications are eligible for the rebate increase.
- ▶ Retail Instant Rebates applications are not eligible for the rebate increase.
- ▶ The rebate increase is available on a first-come, first-served basis.
- ▶ The rebate increase may be discontinued at any point, dependent on available funds.

Breaking Down How the Savings Build Up

Here's an example showcasing the savings potential. Imagine a warehouse upgrade project where outdated lighting and HVAC systems are replaced with energy-efficient alternatives. Below, we break down the total project costs and highlight the portion covered by the rebate, both before and after the additional 25% Rebate Rewards.

Warehouse Upgrade

Replaced 300 400-Watt HID fixtures with 300 175-Watt LED fixtures with motion sensors. Replaced two aging heat pumps with two new, qualifying 4-ton air-source heat pumps.
